

Silverlake Axis Ltd

Accept cash offer of \$\$0.36

SINGAPORE | BANKING (TECHNOLOGY) | UPDATE

- 4QFY24 and full-year FY24 earnings were below our estimates. Full-year FY24 revenue and earnings were at 97% and 70% of our FY24e, respectively. The 39% YoY dip in earnings came from lower-than-expected gross margins and higher-than-expected cost of sales and OPEX.
- Our recommendation is to accept the cash offer of \$\$0.36. The offer of \$\$0.36 per share represents ~2.7 times Silverlake's net asset value per share of S\$13.5 cents as of 30 Jun 2024 and is 20% higher than the last closing price of \$\$0.30 on 23 Aug 2024.

Recommendation

Accept cash offer of \$\$0.36. On 26 Aug 2024, a voluntary unconditional offer to privatise Silverlake Axis Ltd was made at \$\$0.36 in cash per share (inclusive of \$\$0.36 cents dividend). The offeror, E2I Pte Ltd, was incorporated on 10 Jul 2024 to undertake the offer and is wholly owned by Zezz FundQ Pte Ltd, the controlling shareholder of Silverlake and run by Goh Peng Ooi, the group executive chairman and founder of Silverlake. The offer of \$\$0.36 per share represents ~2.7 times Silverlake's net asset value per share of S\$13.5 cents as of 30 Jun 2024 and is 20% higher than the last closed price of \$\$0.30 on 23 Aug 2024.

Alternatively, E2I has offered a combination of <u>S\$0.30 per share in cash and one new</u> redeemable preference share in the capital of the offeror, E2I, for each offer share. The new redeemable preference share will not be listed on any securities exchange and does not carry any voting or dividend rights. They will be mandatorily redeemed five years from their issuance at the redemption amount of \$\$0.18 each (representing a 5-year CAGR of 24.6%). Hence, we recommend investors accept the cash offer of \$\$0.36 per share based on the 20% premium from the last close price of S\$0.30.

4Q24 Results

4QFY24's results were below our estimates. Full-year FY24 revenue and earnings were at 97% and 70% of our FY24e, respectively. Revenue was flat as the increase in recurring revenue (maintenance and enhancement services, insurance ecosystem transactions and services, and retail transactions processing revenue) was offset by a drop in non-recurring revenue (software licensing, software project services, and sale of system software and hardware products). Gross profit fell 9% YoY as there was a change in revenue mix and a fall in higher margin revenue streams like software licensing. Higher costs of sales and OPEX from streamlining business operations led to a decline in PATMI.
